

## 兔抗 APCS 多克隆抗体

- 中文名称：兔抗 APCS 多克隆抗体
- 英文名称：Anti-APCS rabbit polyclonal antibody
- 别名：MGC88159; PTX2; SAP
- 相关类别：一抗
- 储存：冷冻（-20℃）避光
- 宿主：Rabbit
- 抗原：APCS
- 反应种属：Human, Mouse, Rat
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

### 技术规格

**Background:**

The protein encoded by this gene is a glycoprotein, belonging to the pentraxin family of proteins, which has a characteristic pentameric organization. These family members have considerable sequence homology which is thought to be the result of gene duplication. The binding of the encoded protein to proteins in the pathological amyloid cross-beta fold suggests its possible role as a chaperone. This protein is also thought to control the degradation of chromatin. It has been demonstrated that this protein binds to apoptotic cells at an early stage, which raises the possibility that it is involved in dealing with apoptotic cells in vivo.

|---------------------------------|------------------------------|
| <b>Applications:</b>            | WB                           |
| <b>Name of antibody:</b>        | APCS                         |
| <b>Immunogen:</b>               | Fusion protein of human APCS |
| <b>Full name:</b>               | amyloid P component, serum   |
| <b>Synonyms :</b>               | MGC88159; PTX2; SAP          |
| <b>SwissProt:</b>               | P02743                       |
| <b>WB Predicted band size:</b>  | 25 kDa                       |
| <b>WB Positive control:</b>     | Kidney tissue                |
| <b>WB Recommended dilution:</b> | 500-2000                     |
