

## 兔抗 ELL2 多克隆抗体

中文名称：兔抗 ELL2 多克隆抗体

英文名称：Anti-ELL2 rabbit polyclonal antibody

别名：elongation factor for RNA polymerase II 2;

相关类别：一抗

储存：冷冻（-20℃）

抗原：ELL2

宿主：Rabbit

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

<b>Background:</b>	ELL2 (RNA polymerase II elongation factor ELL2) is a 640 amino acid nuclear protein that belongs to the ELL/occludin family. This family is defined by a highly conserved domain of approximately 100 amino residues found within all eukaryotic occludin proteins and the RNA polymerase II elongation factor ELL. These elongation factors activate elongation by suppressing transient pausing by polymerase at many sites along the DNA and govern its interaction with RNA polymerase II and the ternary elongation complex. ELL2 may also contain a novel type of RNA polymerase II interaction domain tha
--------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	t is capable of negatively regulating polymerase activity in promoter-specific transcription initiation in vitro.
<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	ELL2
<b>Immunogen:</b>	Synthetic peptide of human ELL2
<b>Full name:</b>	elongation factor for RNA polymerase II 2
<b>SwissProt:</b>	O00472
<b>ELISA Recommended dilution:</b>	5000-10000
<b>IHC positive control:</b>	Human ovarian cancer and Human thyroid cancer
<b>IHC Recommend dilution:</b>	25-100
