

兔抗 MASTL 多克隆抗体

中文名称：兔抗 MASTL 多克隆抗体

英文名称：Anti-MASTL rabbit polyclonal antibody

别名：GW; GWL; THC2; hGWL; MAST-L; GREATWALL

相关类别：一抗

储存：冷冻（-20℃）避光

宿主：Rabbit

抗原：MASTL

反应种属：Human

标记物：Unconjugate

克隆类型：Unconjugate

技术规格

Background:	This gene encodes a microtubule-associated serine/threonine kinase. Mutations at this locus have been associated with a utosomal dominant thrombocytopenia, also known as thrombocytopenia-2. Alternatively spliced transcript variants have been described for this locus.
Applications:	WB
Name of antibody:	MASTL
Immunogen:	Synthesized peptide derived from C-terminal of human MASTL.
Full name:	microtubule associated serine/threonine kinase-like
Synonyms :	GW; GWL; THC2; hGWL; MAST-L; GREATWALL

SwissProt:	Q96GX5
WB Predicted band size:	97 kDa
WB Positive control:	Hela cells lysate
WB Recommended dilution:	500-3000
