

兔抗 MIF 多克隆抗体

中文名称：兔抗 MIF 多克隆抗体

英文名称：Anti-MIF rabbit polyclonal antibody

别 名：GIF; GLIF; MMIF

相关类别：一抗

储 存：冷冻（-20℃）

宿 主：Rabbit

抗 原：MIF

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes a lymphokine involved in cell-mediated immunity, immunoregulation, and inflammation. It plays a role in the regulation of macrophage function in host defense through the suppression of anti-inflammatory effects of glucocorticoids. This lymphokine and the JAB1 protein form a complex in the cytosol near the peripheral plasma membrane, which may indicate an additional role in integrin signaling pathways.
Applications:	ELISA, WB
Name of antibody:	MIF
Immunogen:	Synthetic peptide of human MIF

Full name:	macrophage migration inhibitory factor (glycosylation-inhibiting factor)
Synonyms:	GIF; GLIF; MMIF
SwissProt:	P14174
ELISA Recommended dilution:	2000-5000
WB Predicted band size:	12 kDa
WB Positive control:	Jurkat , Hela and HT-29 cell lysates
WB Recommended dilution:	200-1000
