

兔抗 GANC 多克隆抗体

中文名称：兔抗 GANC 多克隆抗体

英文名称：Anti-GANC rabbit polyclonal antibody

别名：glucosidase alpha, neutral C

抗原：GANC

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Glycosyl hydrolase enzymes hydrolyse the glycosidic bond between two or more carbohydrates, or between a carbohydrate and a non-carbohydrate moiety. This gene encodes a member of glycosyl hydrolases family 31. This enzyme hydrolyses terminal, non-reducing 1,4-linked alpha-D-glucose residues and releases alpha-D-glucose. This is a key enzyme in glycogen metabolism and its gene localizes to a chromosomal region (15q15) that is associated with susceptibility to diabetes. Alternative splicing results in multiple transcript variants encoding different isoforms.
--------------------	--

Applications:	ELISA, IHC
Name of antibody:	GANC
Immunogen:	Synthetic peptide of human GANC
Full name:	glucosidase alpha, neutral C
SwissProt:	Q8TET4
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human ovarian cancer and Human esophagus cancer
IHC Recommend dilution:	40-200
