

## 兔抗 HSF1(Ab-121) 多克隆抗体

中文名称：兔抗 HSF1(Ab-121) 多克隆抗体

英文名称：Anti-HSF1(Ab-121) rabbit polyclonal antibody

别名：HSTF1

抗原：HSF1(Ab-121)

储存：冷冻（-20℃）避光

宿主：Rabbit

反应种属：Human

相关类别：一抗

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

|                                |                                                                                                                                                                                                                                                    |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background:</b>             | The product of this gene is a heat-shock transcription factor. Transcription of heat-shock genes is rapidly induced after temperature stress. Hsp90, by itself and/or associated with multichaperone complexes, is a major repressor of this gene. |
| <b>Applications:</b>           | WB                                                                                                                                                                                                                                                 |
| <b>Name of antibody:</b>       | HSF1(Ab-121)                                                                                                                                                                                                                                       |
| <b>Immunogen:</b>              | Synthesized non-phosphopeptide derived from human HSF1 around the phosphorylation site of serine 121 (V-T-S(p)-V-S).                                                                                                                               |
| <b>Full name:</b>              | heat shock transcription factor 1                                                                                                                                                                                                                  |
| <b>Synonyms :</b>              | HSTF1                                                                                                                                                                                                                                              |
| <b>SwissProt:</b>              | Q00613                                                                                                                                                                                                                                             |
| <b>WB Predicted band size:</b> | 57 kDa                                                                                                                                                                                                                                             |
| <b>WB Positive control:</b>    | Jurkat cells lysate                                                                                                                                                                                                                                |

**WB Recommended dilution:**

500-3000
