

## 小鼠抗 DsRed-Express2 单克隆抗体

中文名称： 小鼠抗 DsRed-Express2 单克隆抗体

英文名称： Anti-DsRed-Express2 mouse monoclonal antibody

相关类别： 标签抗体

储 存： 冷冻（-20℃） 避光

宿 主： Mouse

抗 原： DsRed-Express2

反应种属： DsRed-Express2

标 记 物： Unconjugate

克隆类型： mouse monoclonal

### 技术规格

|                                |                                                                                                                                                                                                                                                                                                                                                                                            |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background:</b>             | DsRed is a recently cloned 28-kDa fluorescent protein responsible for the red coloration around the oral disk of a coral of the Discosoma genus. DsRed has attracted tremendous interest as a potential expression tracer and fusion partner that would be complementary to the homologous green fluorescent protein from Aequorea, but very little is known of the biochemistry of DsRed. |
| <b>Applications:</b>           | WB                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Name of antibody:</b>       | DsRed-Express2                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Immunogen:</b>              | Purified DsRed-Express2 protein expressed in HEK293 cell                                                                                                                                                                                                                                                                                                                                   |
| <b>WB Predicted band size:</b> | 26 kDa                                                                                                                                                                                                                                                                                                                                                                                     |

|                                 |                                                                                                                                     |
|---------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| <b>WB Positive control:</b>     | HEK293T cells were transfected with the pCMV6-ENTRY control (Left lane) or pCMV6-ENTRY DsRed-Express2 ne) cDNA for 48 hrs and lysed |
| <b>WB Recommended dilution:</b> | 1000-5000                                                                                                                           |
