

兔抗 KCTD4 多克隆抗体

中文名称：兔抗 KCTD4 多克隆抗体

英文名称：Anti-KCTD4 rabbit polyclonal antibody

别名：potassium channel tetramerization domain containing 4; bA321C24.3

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：KCTD4

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	KCTD4 (potassium channel tetramerisation domain containing 4) is a 259 amino acid protein that contains one BTB domain, suggesting a possible role as a transcriptional regulator.
Applications:	ELISA, IHC
Name of antibody:	KCTD4
Immunogen:	Fusion protein of human KCTD4
Full name:	potassium channel tetramerization domain containing 4
Synonyms:	bA321C24.3
SwissProt:	Q8WVF5

ELISA Recommended dilution:	5000-10000
IHC positive control:	Human prostate cancer
IHC Recommend dilution:	50-100
