

## 兔抗 AATF 多克隆抗体

中文名称：兔抗 AATF 多克隆抗体

英文名称：Anti-AATF rabbit polyclonal antibody

别名：DED; BFR2; CHE1; CHE-1

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：AATF

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

|                          |   |
|--------------------------|---|
| <b>Background:</b>       | The protein encoded by this gene was identified on the basis of its interaction with MAP3K12/DLK, a protein kinase known to be involved in the induction of cell apoptosis. This gene product contains a leucine zipper, which is a characteristic motif of transcription factors, and was shown to exhibit strong transactivation activity when fused to Gal4 DNA binding domain. Overexpression of this gene interfered with MAP3K12 induced apoptosis. |
| <b>Applications:</b>     | ELISA, WB   |
| <b>Name of antibody:</b> | AATF  |
| <b>Immunogen:</b>        | Synthetic peptide of human AATF   |

|                                    |   |
|------------------------------------|---|
| <b>Full name:</b>                  | apoptosis antagonizing transcription factor |
| <b>Synonyms :</b>                  | DED; BFR2; CHE1; CHE-1                      |
| <b>SwissProt:</b>                  | Q9NY61                                      |
| <b>ELISA Recommended dilution:</b> | 1000-2000                                   |
| <b>WB Predicted band size:</b>     | 63 kDa                                      |
| <b>WB Positive control:</b>        | Mouse heart tissue and 231 cells            |
| <b>WB Recommended dilution:</b>    | 200-1000                                    |
