

兔抗 APH1A 多克隆抗体

中文名称: 兔抗 APH1A 多克隆抗体

英文名称: Anti-APH1A rabbit polyclonal antibody

别名: APH-1; APH-1A; CGI-78; 6530402N02Rik

储存: 冷冻 (-20℃)

抗原: APH1A

宿主: Rabbit

相关类别: 一抗

反应种属: Human, Mouse

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:

This gene encodes a component of the gamma secretase complex that cleaves integral membrane proteins such as Notch receptors and beta-amyloid precursor protein. The gamma secretase complex contains this gene product, or the paralogous anterior pharynx defective 1 homolog B (APH1B), along with the presenilin, nicastrin, and presenilin enhancer-2 proteins. The precise function of this seven-transmembrane-domain protein is unknown though it is suspected of facilitating the association of nicastrin and presenilin in the gamma secretase complex as well as interacting with substrates of the gamma secretase complex prior to their proteolytic processing. Polymorphisms in a promoter region of this gene have been associated with an increased risk for developing sporadic

	Alzheimer's disease. Alternative splicing results in multiple protein-coding and non-protein-coding transcript variants.
Applications:	ELISA, IHC
Name of antibody:	APH1A
Immunogen:	Synthetic peptide of human APH1A
Full name:	APH1A gamma secretase subunit
Synonyms :	APH-1; APH-1A; CGI-78; 6530402N02Rik
SwissProt:	Q96BI3
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human thyroid cancer
IHC Recommend dilution:	20-100
